

You have just arrived in the area and you are unsure of how our waste system works?

**We'll explain everything!**

## Household wastes

The household waste is collected at your home.

The household waste is classed as hygiene and non recyclable products.

This service is managed by **SICTOM SHV**.

If your home doesn't have a bin, please contact us so we can deliver one as soon as possible.

If you have a doubt on where to throw away, find the tag "Le tri + facile" on it.

## Recycling

The items that can be recycled have to be taken to the éco-points. It's best to take them when you're on your way out somewhere (shopping, taking a walk...). Items which can be recycled include ; thin cardboard, paper, plastic, tins, cans, glass and other types of packaging.

This service is managed by **SYDED 87**.

## Bio waste / Green waste

The biowastes should be treated as close as possible.

If you live in a house with a garden, you will need a compost bin

If you live in a house/building without a garden you need to use the collective compost bins which are located nearby.

This service is managed by the **SYDED 87**.

The SYDED 87 offers composting courses which includes a free compost bin, once a year.

## The Rest

For all the rest, go to the waste collection centre. We have 5 waste collections centres in our area (Saint Yrieix la Perche, Château-Chervix, Pierre Buffière, Saint-Germain-les-Belles et Ladignac-le-Long).

This service is managed by the **SYDED 87**.

To gain access and to be able to use any the waste collection centres, you will first need to apply for a waste collection card.

## Useful contacts
